11: AREAS FOR IMPROVEMENT: Recommendations for the instructor.

N/A
would've like it if we evaluated more/different types of art in the weekly discussions
None, this was one of the most wonderful professors I have ever had.
Amazing professor
No comment on this. The professor showed great enthusiasm and even though I had no art experience before taking this course, I began to enjoy and become more interested in it because of her. I especially LOVE her personalized feedback videos on our assignments. I felt seen as a student and it encouraged me to do an even better job.
Perhaps a simple schedule listing assignments and due dates
I don't have any recommendations for improvement. I feel like the teacher did a really good job.
none instructor has done a great job this semester.

12: INSTRUCTOR'S STRENGTHS: What you liked most about this instructor / course.

N/A
Kathy is locked in, she has made this class both approachable and instructive. She is the best teacher I've had at UNO BY FAR.
She is an amazing professor and their feedback is PHENOMENAL! This is the first course I've taken where I get consistent feedback on my assignments that actually feel like the professor CARES and SEES you as a student. Throughout the course they have been clear, constructive, and genuinely helpful. She makes sure we have all the tools we need to succeed, and she's very understanding when it comes to outside circumstances. She also isn't the type to let students take advantage of her flexibility, which I really appreciate as a student because I can count on everyone being treated fairly and equally. They have a good balance between being supportive and holding students accountable. Overall, she's an excellent professor, and I would absolutely take another course with them.
I really liked how she structured her questions for the discussions. It helped me know exactly what to write about to get all of my points on the assignment.
how well the instructor explained the material.
loved the feedback
shes nice
I liked that the instructor incorporated video recordings of themselves presenting the lecture material, I really appreciated the instructor's use of video to present feedback on the assignments, the human touch in an online asynchronous course was a great touch.
Great communicator, very passionate about class content, very knowledgeable, cares about her students, great class structure & organization, love her feedback, cannot have asked for a better professor!!
The thing I most liked about this course was the professor's feedback and timeliness on grading. She was very expressive in her feedback which helped me do better in this class and every assignment was graded by the next day.

More wide engagement
Nothing in mind.
I have no complaints; you do a great job. I don't know how you put up with half the shit you put up with. If I had to deal with kids like Alex, I'd scream or crash out. Still, you show a level of patience I have seen few teachers possess, and that's a great skill. You should also have your next class do more outside trips. We have such a beautiful campus, and no one takes advantage of all the green space. Otherwise, fantastic job!
Nothing that I can think of.
N/A Loved everything about this class
Throughout the semester, I wish there had been more direction from the instructor. I understand being more open since it is an art class, and unlike a math or science class, the curriculum is less set in stone, but starting the semester with more of an idea of how the class would go would've helped. It was nice that the teacher listened to student feedback for changes to the course, but there is a level to it, and at the end of the day, the teacher should set what we do in class and for the semester. Also, make the responses less of an on-campus requirement for those of us who don't live on campus and work.
Do more art trips
Less PowerPoints.
No real areas of improvement your class was great and so are you. The only feedback I could say is addressing students who are speaking during your lecture in the moment because it's distracting to those trying to pay attention
No areas of improvement needed teacher was very understandable.
None
I have no recommendations for improvement

12: INSTRUCTOR'S STRENGTHS: What you liked most about this instructor / course.

I liked how enthusiastic the teacher is and how you can tell they enjoy teaching. It makes learning much funnier knowing that they are passionate about the course.
N/A
Her enthusiasm.
Showed lots of enthusiasm and made very creative assignments.
I like how she presents her lectures and how she tries to connect with students.
Her enthusiasm and ability to make the class have a good time while engaging in the course
I can see that this instructor is trying their best to teach the students even when there weren't many students there, in which I strongly respected. In this course, I learned what fine arts was all about. The lessons are pretty useful. The interactive exercise kept the students entertained. The assignments were easy to do as long as you follow what it says to do. Overall, this class is good.

Showed excitement to teach and different ways to keep the class involved/interested
Everything
Dr. Kathy Rodriguez is always kind to her students and makes sure to foster a safe space in her classroom. She is a very good teacher who is good at making connections to the class topics making it easier for students to understand.

She was very spontaneous, and she was actually excited to teach her subject
Teacher was very lively and passionate about their subject.
Very enthusiastic
gave ample time to complete coursework and gave clear instructions for all assignments.
Everything about her, how she lectures, what she does for the lectures, she is unique and inspiring.
I liked their ability to provide a greater level of comfort and understanding within the classroom. There was truly "no judgement" in this teacher's class.
The instructor was very organized and communicated assignments very well. Each class we discussed what was due that week and had constant email reminders so If anyone gets less than a B in this class it's all on them. I appreciate your enthusiasm, your care for mental health, and your efforts to make the class more engaging by doing more hands on work. The instructor always asked for feedback to make sure that we were constantly engaged. All in all knowing that I had to go to Kathy's class was soothing in the mist of chaos, thank you for making learning enjoyable and living up to your classes name of art appreciation.
HER ABILITY TO TEACH
She is very passionate and a great teacher
She was very funny and charismatic
Oh, so many, I can't even fucking begin to describe them all. Seriously, could you give her a bonus now? She's one of your best!
Passion for the class.
I liked how the class was structured.
organized
It was fun walking around the campus and seeing the cool art and going into her art studio in the fine arts building, and drawing the pictures as the students describe what the picture looks like.
Like I mentioned, the openness to hear feedback from students is a plus, and you seem like you are a good person who is enthusiastic about this subject
I liked the energy she gave the classroom it felt great being there in class
Prof Kathy was extremely accommodating to our feedback and did her best to make the FA1010 course interesting. She also gave me an extension when I was deathly ill

She did a great job keeping my attention. she did her best to keep the lessons interactive and engaging. she was supportive and encouraging to her students.
Definitely my favorite instructor and course this semester. I hope I can get to take another course with Ms.Rodriguez in the future— she's very accommodating and cares deeply for her students, she is considerate, and she made the class a very comfortable place to participate in and interact with other students. At the beginning of the semester, I was not excited about having to take Art Appreciation, but looking back, I am very grateful I got to take this course with Ms Rodriguez!! 10/10 class

N QPC P
How interactive she was with the class
I really liked the course, because I went in expecting an art class to be terrible, but she made it really easy, fun, and understandable. I also found that despite art not being one of my favorite things, she was still able to keep my attention. Also, all the homework was great for helping me further understand the topics addressed in class.
As my instructor gave us new information she would make sure she had videos and factual evidence to support.

Note: This was the last term to use Webstar to enter final grades. Webstar was disabled prior to receiving course evaluations. I asked summer session students to submit evaluation feedback in the final exam response. They received full credit for completing the assignment. Some responses were in HTML or text in Canvas, and could not be included here.

FA 1010 – Art Appreciation
Summer 2024

Final Exam Response

To complete the final exam, please create EITHER a written response – no more than 500 words – OR a brief, 3-minute max oral presentation uploaded to Canvas as a video, and specifically respond to the prompts below. Click "Reply" to add your post.

If you have not responded to at least two other posts that are not your own this semester, please use this as a final opportunity to do so. I encourage you to read and respond to others' posts here, regardless if you have completed the participation requirement.

Please respond to the following:

1. What is your overall perception of the class? How were your experiences with interactivity, usefulness of information, clarity of information, and presentation of information? How do you perceive your own success in the course?
2. What, in your own words, is the most important thing you've learned over the last month?
3. What, in your own words, do you think you might like to learn more about from a class like this one?
4. Please give any other comments that you think are relevant to this response.

I am grateful for your feedback! Your honest evaluations help me plan for future courses. I am revising the class for the fall semester, so this is a particularly helpful responses for me as I approach making new materials.

Response 1.

Hello Professor, thank you so much for teaching this class. For an abbreviated non-synchronous online class, it was as good as it gets. The lectures complemented the text perfectly and were delightfully entertaining and educational. The text book was very informative and readable. For those without it though, the slides could have been enhanced a bit to be the vehicle for more detailed information. The slides do provide a great permanent reference of the material so they will remain in my library. Your brilliant risky invitation to evaluate you opened up the course for non-critical discourse.

The responses and comments from many of my student colleagues were varied and interesting, but more interaction and discussion would have been encouraged in an in-person class or even zoom lectures. There was not much in the way of question and answer. Based on the responses, I doubt there was a consistent understanding of what the response objectives were. We might have had some interesting discussions about that too. Required responses to **all** submissions would have been reasonable and feasible I think, and respectful critiques could have been encouraged. I do understand the reluctance to criticize others' ideas, however.

First among my take-aways is my increased enjoyment of art and its elements. Second, this course gave me the substantial tools to formulate cogent opinions of art, that is, how to organize my thoughts about art and its details to offer convincing opinions and arguments.

I can't imagine what additional subject matter would have been appropriate. More opinions (especially contrary opinions) and analyses from various sources like scholarly readings would always be welcome. I suspect I am alone in this regard.

Response 2.

1.) Overall, I think the course was well designed and well presented. The course contains a tremendous amount of information and probably deserves a full semester instead of trying to do it all in four weeks. I am pleased with what I got out of the course, but I regret not taking this course before I went to Paris and Rome in May.

2.) Like I have said in earlier responses, I believe all art has meaning. This course has given me a vocabulary, a language, that I can use to see this meaning. It encouraged me to not stop with my first impression, but to take a deeper look.

3.) Since my favorite form of art is paintings, I would like more time spent analyzing individual paintings by some of the greatest artists in history. I'd also like to learn more about the history of these artists.

4.) As a final session of the course, I think it would be really interesting for the professor to choose four or five great artists and analyze what is considered their masterpiece for the class.

I very much appreciate the timeliness and thoughtfulness of your assignment feedback. I am sure that the course just scratched the surface of art analysis, and I regret that there is not an Appreciation II from which to learn more. I am sorry to see this class end.

Response 3.

1. In FA 1010, I had an amazing experience. Initially, I thought it would be just another class where I only remembered the information for the assignments. However, I can confidently say that the materials I've learned in this class were genuinely informative and interesting to me. It was challenging at the beginning to relate certain terms to a painting that I thought had nothing to do with it. But as the class progressed, I realized how many art terms I could relate to a single painting, and I found that I loved assignments like the applied learning responses. Learning how to present the terms and information I discovered for the assignments made my analysis skills much stronger.
2. The most important thing that I've learned over the past month is the importance of details. Analyzing the little aspects of different art pieces made me appreciate art so much more, and I am extremely grateful for that.
3. I really enjoyed exploring different art forms in my friends/families' homes because it made the small personal touches of our homes even more personal, but I think it would be helpful to have more specific guidelines for the types of art we can choose for our learning responses. It would be great to have a set genre to pick from, which could help us appreciate different types of art that we might not have initially found interesting. It would also be fun to have the option to explore local libraries, museums, and other places to find these different genres of art.
4. I enjoyed this class a lot and even felt inspired to start some painting of my own! Thank you for making this class fun and helping me to ignite some creativity. I don't have the slightest bit of negative feedback for this class.

Response 4.

My experience with FA1010 was great and positive. This course was fun, easy, and interesting. Information's were clear and understandable also they were useful; I learned a lot of things such as how to describe art the right way. The clarity and the way the information's were presented made learning interesting and fun. Overall, this course was easy to get through and learn as much as I can, it's one of my favorite courses. The instructor for this course which is Ms. Kathey was a really good and understandable instructor, she made it easy to learn and understand art and evaluate it the right way, also she was easy to find and contact with her, I didn't face any hardness in her course. The most important thing I learned over the last month in this course was that art can be seen in many different ways , each one of us have their own point of view of stuff , and we can't judge the way they look at stuff , and they can't judge us for the way we look at stuff.in evaluating art there's no wrong answers all answers are right: because there's different opinion and we don't have to be all the same or copy others. Also, there's always a meaning behind art and it's interesting to explore it and learn it. in Addition, I learned that art be described in many different ways, there's a lot of words that we can use to describe something we see. The environment in this class was comfortable and contact with others was easy. I honestly don't have any evaluations for the future course, the teaching style, clarity of information, and the presentation for information everything was perfect and understandable.

I appreciated the instructor's enthusiasm and outlook on getting supplies and obtaining materials around the city. This is super helpful not only to the class but once done with college to have those real life areas of knowledge of where to go and what to look for is important as well as the skills learned in the class. The examples presented were very helpful to understand the project and and to help give inspiration. Great with answering questions and very supportive of ideas. I really appreciated the time the instructor would give outside of class to help allow for time to finish projects.

I appreciated that the instructor took the time to form a meaningful connection with us as students. She understood the mental processes (and struggles) that impact artwork and was willing to listen. She provided adequate reading material that helped me to understand techniques, and then demonstrated the processes herself, which was extremely helpful for my own artwork. It was a great semester!

Such an unique class, thanks to Kathy we got to paint a Mural on campus, which is really fantastic

Provide worksheets to go along with the video lectures.
Make moodle more organized. Send out work early in the week not at the last minute. After the midterm, start sending out work, don't wait a week and then slam the class with over 8 emails. Make due dates clear. Try to have more of a calendar because online school is hard enough for most people, and it would be helpful if we could have a bit more time for assignments.
Maybe consider having more assignments? I constantly felt like I was forgetting to do an assignment because of how little work was being assigned. If I recall correctly, all that I've been asked to do this whole semester was: 3-4 attendance checks, 5 five-question quizzes, and 2 exams.

Despite what I said for the improvement section, the class works very well. The little amount required work does a fine job of teaching the course material.

The instructor loves the subject she teaches and it shows! She is so enthusiastic about it that it makes you want to love and appreciate art just like she does and during the length of this course she teaches you to do just that, love and appreciate art for the deeper meaning it holds. her recorded lectures are a delight to watch and I enjoyed learning from every single one! The course was informative. Has the notes for you to go over before the test.

I really liked how Mrs. Rodriguez was fairly engaged with each of us and kept us engaged as well as always helping us if we had any questions via email. She was also very understanding under certain situations and allowed me to complete my work if I hadn't.

Recommendations for the instructor

|---|--|
| 1 | <p>I think more critiques throughout the semester would be beneficial. Also giving students tools necessary to offer up useful advice during critique.</p> <p>This is less for Kathy and more for the department: there should be an option to test out of this course. While I enjoyed the drawing exercises it felt LARGLY like a review of things I already knew and therefor a waste of time and money spent.</p> <p>I understand this course is useful for those with a less comprehensive art class history however, for someone like myself I feel the 9 hours per week could have been better spent.</p> |

Recommendations for the instructor		
1	Nothing really just feels like her class size is a lil to big and not everyone comes because of it.	
2	You're doing amazing.	
3	I have no idea what the purpose of this class was. A total waste of money and time. There is no point to have this class as a lecture, online should have been the only option. I absolutely feel sick thinking about how i had to pay money for this class. Attendance was never kept and she missed class at least once a week. When shed email about missing class it would always be 5 minutes before class started. Always talked down to students. If a student got up to leave class for whatever reason, she would single them out and humiliate them in front of the whole class, even if it was to use the bathroom. Always talked about her personal life and wanted students to feel bad for and pity her. As a student i shouldn't have to listen to her babble on about her personal life. I am here to learn and i did not learn anything from her. I learned nothing from her. If you have any background knowledge in art then this was an extra waste of time. I would never recommend this class to anyone. Again huge WASTE OF MONEY and TIME.	
4	She's doing a wonderful job!	
5	Some of the students should be encouraged to be silent not interrupt class.	
6	Instructor cancelled class often...which took learning time away from students. She could be a really awesome teacher, I just wish she had been more present throughout the semester.	

Instructor's Strengths		1-12 of 12
What you liked most about this instructor / course		
1	She explained concepts in such a way that made them easier to understand and had examples so students could visualize the different eras and methods of art.	
2	This instructor's strengths were her attitude and her personality that made me feel like it was okay to ask her any questions that I needed answered.	
3	Ms. Kathy is amazing and always brings a lot of energy to her class everyday , very much happy instructor for the most part loved her class this semester.	
4	Very knowledgeable about the subject.	
5	Good at explaining in details and helps students when confused.	
6	I have no good things to say about this instructor or course. Terrible instructor and a terrible class.	
7	During my time in this course, I was very happy. and, when I confronted her with a question she answered very clearly. This class was amazing, and she is a wonderful teacher.	
8	Very nice and energetic. Made learning interactive and fun.	
9	Very confident and creative	
10	Kathy is very knowledgeable about art and art history. She is funny, helpful and cares about her students.	
11	I really enjoyed the scavenger hunts we were assigned as they gave me time to explore the city more. I also liked that we got points for going to UNO art events because I had fun at those! And I liked that this class introduced me to UNO's student art gallery...I did not know where it was previously but now I go often to look at the artwork on show there.	
12	I liked the way the material was presented.

Recommendations for the instructor		
1	Some recommendations or improvements for the classes are how we view the class material via Moodle. The layout I am not sure why it is different when viewing other courses via Moodle but it does create some confusion instead of having the subject material flow smoothly. It would be beneficial for the students to be able to see up coming deadlines as it appears on Moodle for other classes in which it appears in our calendar. For this class, I felt as if I need to dig for the up coming deadlines on which homework, assignments, quizzes or exams were due. At times I felt that this was the cause that I may have missed a discussion board. I made sure to check my email and Moodle daily since I work full-time and attend school as well. I just believe that the layout or format in which this class is viewed on Moodle could improve. Overall the class was very educational and enlightening.	
2	Kathy has been one of the friendliest professors I've had at UNO. She is very caring and polite to the students. However, I'm not sure if she knows how to use Moodle correctly. Nothing was ever posted on the calendar, or clearly stated when its due, so I genuinely have no idea if I have done all of the work required to pass this class.	
3	Everything was perfect!	
4	NA	
5	The moodle layout was confusing. Very hard to meet in person/ very unclear office hours.	
6	The work assigned was bullshit.	
7	Nothing.	
8	N/A -online class-	
9	N/A	
10	I would like it if you gave a heads up on the writing assignment because I almost missed the deadline not knowing there was one	

Instructor's Strengths		1-16 of 16
What you liked most about this instructor / course		
1	Professor Rodríguez makes the class very educational and allows students to express their own opinions and views on different subject matter which is amazing. She does a great job and providing examples of the material at hand or on the subject matter that is being learned at the time. Her classes as well allows students to create their own critical thinking on different art pieces through visiting art galleries, museums, and everyday art that surrounds us.	
2	q	
3	This was my first and only course online I have taken in my four years at UNO. It was a different experience, but I really liked how you prepared your presentations. When I was going over them, I felt like I was actually in class hearing you explain a PowerPoint. Another thing I liked about this course was that for part of our grade we actually have to go art events. Although I am not an Art major, I have always been intrigued by art and occasionally went to NOMA or other art events when I had free time. I personally found it good that we actually had to go and take selfies and take pictures of art and give our opinion on it.	
4	Clear explanation and instructions. Very organized.	
5	Enthusiastic about the course. I learned a lot more about art that I didn't know before.	
6	Emails a lot and keeps you informed when new assignments are posted.	
7	Good professor, would take her again.	
8	she was great!!!	
9	I like how she sends videos for us to learn about art in a different way. They're pretty interesting.	
10	She provides plenty of lectures and course material to help us understand the topics covered in the class.	
11	-online class- N/A	
12	The instructor made the class interesting by assigning assignments that got us out and about, discovering art in our local community and allowing for a variety of learning styles. Her method of explaining and relating the material to modern times was a great strength as well.	
13	N/A	
14	She gave me helpful feedback on what our exams were going to be like.	
15	She engaged with her students allowed them to ask questions.	
16	She was great to talk to and I enjoyed her class, I might prefer an art class in person next time but she did a great job with it online, I just thrive better in person!

	Recommendations for the Instructor	
1	None	
2	I wish she taught more classes, so I could have her as my professor more often.	
3	When giving announcements to our group, I'd suggest that she be a little clearer and louder about important things, e.g., due dates. Or perhaps email all of us - Kathy is pretty good about emailing in general, though. I just think it might help reduce the amount of questions she gets asked on a daily basis.	

Instructor's Strengths		1-5 of 5
	What you liked most about this Instructor / course	
1	Always patient and flexible. Great classroom environment.	
2	sweet, fun, caring, relatable, genuine.	
3	Kathy is a nurturing, sweet and loving professor. She truly cares about her students and wants them to do well. She's the best professor I've ever had. Furthermore, she is always give thorough instructions on projects, techniques, and safety guidelines. For example, she gives helpful demonstrations in class, and she always stresses the importance of safety. She is the reason why i switched my major to Art.	
4	Kathy is amazing. The students love her and everyone feels comfortable in her classroom. We are all learning together, and Kathy is always there to help and give suggestions.	
5	Very knowledgeable and enthusiastic about painting, always kept class entertaining, and was always readily available to answer students' questions. Overall, a quality professor

Recommendations for the Instructor	
1	less grad student presentations
2	It was weird that we did not have any tests. Our only assignment was a paper due at the end of the semester. I just wonder how Ms. Rodriguez could asses that we were learning/retaining info. Ms. Rodriguez's PowerPoints were very terse. It would've been easier for me to retain info if she included a few bullet points. It is hard to take notes mostly based off of what she said orally.
3	Some sort of assignment other than just the graded progress on the research paper throughout the semester that is related to the paper, still, might be a useful tool to help students prepare for the paper. An example might be turning in small assignments that ask students to analyze or compare some of the artists works with those of a similar art style or movement.

Instructor's Strengths**1-6 of 6**

What you liked most about this Instructor / course	
1	great instructor
2	probably the best teacher in the entire art department. would recommend
3	Kathy is a great lecturer. It was obvious when a topic piqued her interest. I would love it if she taught more Art History classes!
4	Entertaining lectures
5	Extremely kind and understanding. Made course very interesting and did amazing in presentations
6	A great teacher! :)

Recommendations for the Instructor	
1	None
2	There were many times during the semester when there seemed to be no plan of what we (the students) were supposed to do. Several students often just sat around, left early, or didn't bother showing up at all. I sorta didn't understand the point of this course. It could've been supplemented for Art Appreciation.
3	N/A
4	none! great work!
5	n/a
6	Draw with the students.

Instructor's Strengths**1-7 of 7**

What you liked most about this Instructor / course	
1	Knowledgeable. Creates a positive classroom environment.
2	Kathy is a sweet soul. I liked that she had presentations that introduced our upcoming projects. The days that she lectured were fantastic!
3	Kathy is very, patient, supportive, and presents material in an interesting manner. I will recommend her courses to friends.
4	Timing of projects was well-suited to the scope of the assignment, both the instructor and the T.A. were helpful and kind with offering feedback or critiques of work in progress. Instructor and T.A. both created a classroom environment where all students (whether art majors or something else) were encouraged to think and create and speak like artists. Critiques went very smoothly as a result of this respectful/constructive classroom culture. Hat's off!
5	The instructor had fun projects and assignments throughout the course.
6	Listening and working with students, easily available to talk to
7	He is chill and kind of relaxed. He gives great critiques on work and pushes you to be better then you were the last class.

Recommendations for the instructor		
1	None, Kathy did a great job.	
	<p>-This isn't your fault, but we don't have a lot of class time in general and being absent a couple times already messes up the schedule. I hope you're ok though.</p> <p>-I thought we were going to do memory drawings of the same sketch we did the very first class but I guess we didn't? Not a big deal though.</p> <p>-kinda wish you replied to emails quicker, but I realize you probably check on emails only in the mornings and usually by then it's kinda too late.</p>	
2	<p>-should specify which assignment is considered a "sketchbook" drawing (SB) so that we know not to put that in our final portfolio out loud. I know it's on our syllabus, but you don't really point that out in class. I had to figure that out on my own.</p> <p>-should remind us that we have to complete our assignments if we want to turn those into our portfolios.</p> <p>-maybe warn future students that we barely use the 9x14 sketchbook when we mostly use the 18x24 drawing pads that you gave us to save our money. haha..</p>	
3	<p>This professor assigned class work that nobody understood, then wouldn't explain the assignment at all. This is a beginner art class, even though I am not a beginner most of the class was and I would be just as lost as them. An older art professor came to sub the class one day. Even she said that our professor was being too hard on us with the strange assignments. This class was just confusing and we did the same thing every day.</p>	

Instructor's Strengths		1-2 of 2
What you liked most about this instructor / course		
1	Kathy is very dedicated and did a great job.	
	<p>-very nice and calm</p> <p>-very generous with materials</p> <p>-gives a mini demo to demonstrate to students how to use a particular medium</p> <p>-loving that it's not only pencil to use as a drawing medium</p> <p>-class in general is honestly calming and fun in my opinion</p> <p>-love that you ask the class for music suggestions to play while we work on our assignments</p>	
2	<p>-critiques were surprisingly fun and you're not too judgemental/critical about our artwork; instead if we do something wrong, you give us helpful tips which is exactly what I want instead of discouraging students by insulting their faults</p> <p>-you find good things to say about everyone's artworks and you don't really put someone in the spotlight about their artworks whether they're good or bad</p> <p>-At first I didn't want to take a drawing class because I felt discouraged about my own skills, but I finally decided to take one out of curiosity and I'm so glad I did. Thank you Kathy! I'm more encouraged to do more art in the future.</p>

Recommendations for the Instructor		
1	I would have liked a little more instruction for Project 3. She could have explained a little better. I did not feel like i was doing the project right for most of it but I did like the project idea overall.	
2	The Instructor should consider of adding a different themed bell work which occurs before class starts so that the students can sketch out ideas and not be stuck. When it comes to critiques, for it not be awkward or stressful, let students work together beforehand and create a collaboration piece so that everyone could understand one another more.	

Instructor's Strengths		1-3 of 3
What you liked most about this Instructor / course		
1	I liked they way the instructor connected with the students. It made me feel more at home and able to get comfortable in the environment. I did not feel judged at all in my artwork.	
2	Great teacher who is very supportive of her students	
3	The instructor is well-mannered and supportive on an academic and personal level. When working on the projects, the instructor walks around the room and gives us constructive feedback on what our work needs and a way on how to construct it if we don't know how. In this instructors class each project represents the criteria or art style that is presented on the syllabus. The medium that is used is oil paints which is a tad bit expensive yet the consistency is sleek and smooth. Taking this course has made it more exciting because of the use of a new medium and learning different techniques and skills gives the students a way to work on their original styles.

Recommendations for the Instructor

- 1 Reading the entire syllabus word for word on the first day of class is EXTREMELY painful. I really don't find it necessary. If there's a want to make the most of class time on the first day there are other better ways. Reading the entire syllabus word for word and then elaborating on each section on top of is redundant.

Instructor's Strengths

What you liked most about this Instructor / course

- 1 Kathy is fantastic. She's always available to help in anyway and she does have a genuine interest and desire to help her students. I would take her again in a heartbeat, even if I have to sit through that painful first day of class.

Recommendations for the Instructor		
1	This is one of the most organized classes I have ever taken. I had to take care of my mother for two weeks and the professor gave me extra time to complete assignments and gave me information for on campus help centers in case I needed emotional help.	
2	I would argue to be clearer with how she lectures. It took me a while to understand how she progressed from artist to artist, or even to understand who she was talking about. It became much easier as time goes on, but my notes kind of jumped all over the place. I think it was her use of pronouns. It became unclear who she was discussing at various points.	
3	Nothing.	

Instructor's Strengths		1-2 of 2
What you liked most about this Instructor / course		
1	I loved how she made 19th century art seem very contemporary. She always incorporated discussion of feminism and gender issues, which brought me back into the material. I loved the class	
2	A wonderful teacher!

Areas for Improvement

1 of 1

Recommendations for the instructor

- 1 The only aspect of the class I believe could be improved, is perhaps the time frame for the last three projects. Due to the class being offered in the spring, it seems as if the last three projects had less time to work on and refine before they were due.

Instructor's Strengths

1-4 of 4

What you liked most about this instructor / course

- 1 Very helpful, and always answered questions with a demonstration of assignments objectives.
- 2 Kathy and Martin were great teachers and knew how to effectively help us understand the course materials and put the knowledge to practical use. They took their time to help us both as a group and on a one-to-one basis. the class assignments were always easy but challenging to do and were fun as well. I believe it is a great intro class for design fundamentals. They also took the time to make presentations that not only promoted class discussion but went in depth into art history and other theories and new art practices.
- 3 She was very supportive of me even through hard times.
- 4 - Enthusiasm
- Assigned interesting & fun assignments
- Was very helpful

Recommendations for the Instructor		
1	This class was fun and stressful at the same time. I think it would be better if the process for the proposals was a little faster so we could have started painting earlier. Even though the proposal helped me with my project.	
2	I really wish that we would have focused more on, individually, our past works we have done, our plan on what we want to do in the future with out degree and making a series that goes along with what we want to focus on. I enjoyed the class, and learned a lot during the semester. I really wish we would have taken time to focus on our style as artist and gotten more help with developing our style for our future.	

Instructor's Strengths		1-2 of 2
What you liked most about this Instructor / course		
1	I liked that Kathy had a lot structure for the class. I have never taken a painting studio with so much structure. I think it really helped me get ideas together and really allowed me to think about my ideas. I liked the proposal part of it. She is very good at explaining things.	
2	I loved Kathy's enthusiasm about everything! we had the opportunity to go to the contemporary art museum, which was something i had never gotten the chance to do before. I really got to learned about different artist and how they relate to the series i was doing. i loved the class and looked forward to working and hearing kathy's suggestions on how to improve as an artist.

Recommendations for the Instructor	
1	Helpful
2	UNO needs to start putting forth more effort into the work space of the studio dept. I would even suggest having a bake sale or anything to get more equipment and supplies that students need, not to mention a building that isn't so trashy. This is for the school not the instructor.

Instructor's Strengths**1-2 of 2**

What you liked most about this Instructor / course	
1	,keep encouraging
2	I liked that the teacher was young so I felt like I could relate better with her than the teachers who are a lot older. That age gap can really make it harder to communicate with teachers who are more up there.

	Recommendations for the instructor
1	N/A
2	n/a
3	I recommend that the instructor be more assertive in keeping due dates because many students will begin to slack off if they see that they still have more time. For example, if a sketchbook assignment is due that day and it has already been assigned for homework, then the assignment should be finish by the end of class. The student should not need more time since they technically have had more than enough time to do it. Overall, the instructor is a great professor.
4	Decorate the room.

I also like it when she provides clear examples and tries her best to answer the student's questions. I find that the course to be very enjoyable. In every class, I always find myself in a state of relaxation. When she puts on music, I am in a state of trance as I work on my projects. I always look forward to coming to class.
5	The instructor was very friendly and reasonable. She strived for our success. This course was challenging and frustrating but it made me more creative and inspired.

Recommendations for the instructor

- | | |
|---|---|
| 1 | No recommendations. I thought Kathy did a great job teaching this course, and I learned a lot. Everything was always so organized. |
| 2 | Lectures were a bit too long-winded and I felt terrible for not being able to pay attention for long. I think splitting the lectures into smaller sections would be better. |

Instructor's Strengths

1-2 of 2

What you liked most about this instructor / course

- | | |
|---|--|
| 1 | I learned a lot about painting with oils. This was a great class, and it has made me want to use oil paints in the future. My favorite assignment was the abstract one. I thought it really allowed me to explore and experiment with the paint, and I think that's when I learned the most about how to use oil paints. |
| 2 | Very sweet and interactive with the students. Difficult course in terms of amount of time needed to pour into projects. |
